REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a vehicle having an engine and a transmission connected to the engine, the vehicle comprising a controller which functions to: set a difference between a maximum drive force of the current vehicle speed and gear position, and a running resistance at the current speed as a spare drive force; set a difference between a current drive force of the vehicle and the running resistance at the current vehicle speed as an excess drive force; and control at least one of the vehicle engine and the transmission so as to reduce a ratio of the excess drive force to the spare drive force. These limitations are neither taught nor obvious by the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

US 200220147537 by Nishida et al. disclose a driving force control system for four wheel drive vehicles.

US 20020002436 by Nishida et al. disclose a driving force control system for four wheel drive vehicles.

US 5928301 discloses a controller for vehicle.

Art Unit: 3661

US4677880 discloses a method of controlling automatic transmission in accordance with engine operation.
